

Solihull Family Information Service

In a recent survey, 70% of Solihull parents said that they needed more information but didn't know how to get it. Did you know that the Family Information Service is there to help you get the information you need?

They can help with information on childcare, activities and all kinds of services that can offer support. They can also provide tailored information for parents who have children with additional needs and disabilities. If you don't know where to go for the information you need, the Family Information Service can point you in the right direction.

The FIS also sends a regular newsletter out to parents on their 'Parents' Network' to keep them up to date with local events and services. The network is free and you can join on-line or contact the service to request a form.
