- Apply the use of numeracy skills at work and at home
- Calculate overtime payments and annualised hours
- Calculate retail discounts
- Understand your finances
- Speed up mental arithmetic
- Discover ways to make calculations easier
- Subject to initial assessment

This course will lead to a national qualification.

"The course was fantastic and the tutor was brilliant - very easy to learn from. She has given me a lot of self confidence" Fast track learner

"The course was easy going - not too strict or formal. My maths skills improved quickly and I can apply them at work, in my retail environment" Fast track learner
