

July 2010

Dear Parent/Guardian,

**OCR Level 1 and 2 Adult Numeracy Course**

*Would you like to update your numeracy skills and reawaken your mental arithmetic? Is it a long time since you tackled numbers at school and you could do with a refresher?*

*If so, we have just the course for you!*

We are working with Solihull College's Community Education and Skills for Life Department to offer you the opportunity to achieve the OCR Level 1 and 2 Adult Numeracy, which is a nationally recognised qualification.

The classes will be held here at Light Hall School completely **free of charge** and will take place each **Thursday at 7-9pm from 16<sup>th</sup> September to 16<sup>th</sup> December.**

Units include problem solving; interpreting tables, charts and graphs; using decimals; using fractions; area perimeter and volume; ratios; units of measure; percentages; money, time distance and temperature; probability and using a calculator. The sessions will consist of tutor led workshops, group work and individual work.

The course is not basic but equivalent to GCSE level and will require a reasonable level of commitment from participants. Homework will also be set each week. During the final session you would be expected to sit a short assessment to be awarded the qualification.

If you are interested please complete the reply slip below and return to me before Friday 3 September, or e-mail me on **s207swatson@lighthall.solihull.sch.uk.**

Yours sincerely,

S. Watson  
**Specialist College Manager**
