

MATHS ONLINE HOMEWORK

The maths department will soon be setting homework predominantly via the website “My Maths”. Each student in the school will receive their own personalised login details, which will be given to them by their teacher. You can check what homework has been set, if your child has completed it and what they have attained in the following way:

1. Log onto www.mymaths.co.uk
2. The login details are **lighthall** and **graph**
3. **Your child will have their own personal login details in addition to this** – they should enter these into the PINK box on the left
4. Your child’s page will then be displayed and you can see:
 - What homework has been set
 - When this homework is due in
 - What homework has been completed
 - What the student achieved in this piece of work

 70% or more correct

 40-69%

 Below 40%

If your child gains a red light, they should click on the “lesson” for that topic and try the homework again to try to get an amber light.
